## OUR SERVICES

### RCM Profitability Guide™

Analysis of coding practices to identify more accurate billable opportunities that will maximize reimbursement, such as assessing which problem and lactation visits you can bill outside of global

### Billing and Claims Submission

- Claims coding/scrubbing, complete, accurate documentation and submission for payment
- Leverage Revascent critical thinking skills to resolve even the most complex billing scenarios
- AAPC- and AHIMA-certified coders abstract medical documentation into E/M, CPT, HCPCS and diagnosis codes, safeguarding your organization from potential revenue loss and compliance risk

## Claims Follow-up

- Claims tracking, follow-up to resolve denials, resubmit for payment
  - More than just the “easy” claims – we focus on claims complexity by pursuing and appealing all claims that are incorrectly or unfairly denied
  - Payment posting, reconciliation

---

## Audits and Compliance

Regular, thorough inspection of provider credentials, documentation/coding and claims and remittance processing to help ensure compliance with regulatory requirements

---

## Performance Management and Reporting

Analytics-driven monitoring of key metrics, payer and patient engagement and claims and revenue trends is synthesized into actionable insights and

---
